### **The future of humanity lies in the hands of a group of eighth-grade friends in this thrilling middle-grade portal fiction novel.**

**LOS ANGELES, California, March 19, 2024** – When eighth-grader Mikaela Kadono moves to a new town into a spooky fixer-upper house, she’s bummed about leaving old friends and being the new kid at school. But things take a quick turn when she joins an after school aviation club called Drone Legends. On their first mission she and her new friends are saved from a near tragic accident by a mysterious, futuristic AI drone. Then she finds an old hidden journal in her attic with a cryptic message, opening up a mystery and a mission for the girl and her new friends. Their perilous adventure takes them from the high seas to a secret labyrinth of tunnels. As they solve the clues it seems that this century old message was left specifically for them. But how could that be? The future of humanity hangs in the balance as the Legends follow the trail and battle an unknown foe who always seems to be one step ahead. With his new middle-grade portal fiction novel, *The Rise of The Legends*, author Jake Zortman brings a thrilling sci-fi story that straddles the past, present, and future.
